

Chesapeake Human Resources Association (CHRA) Awarded the SHRM Pinnacle Award

SMG is excited to announce that the Chesapeake Human Resources Association (CHRA) has won a coveted **SHRM Pinnacle Award** for 2019. The SHRM Pinnacle Award honors the highest achievements in SHRM chapter development and contributions that serve HR professionals, advance the HR profession and enhance the SHRM community. This year there were 75 entries

for this prestigious award, with the 12 winners submitting innovative projects created and implemented by their SHRM chapter or state council.

As CHRA continues to grow, it has become apparent that its members are asking for more specific and focused content, and the inaugural HR Executive Roundtable was created and launched. Comprised of CHROs and Executive HR Practitioners the Roundtable is designed to bring C-Suite HR Professionals together for thought leadership dialogue, knowledge sharing, and networking. The program has been so successful that CHRA recently launched its HR

Department of One Roundtable. This Roundtable offers HR professionals who are the sole HR representatives in their organizations a place to learn and support one another in their unique roles. It has been a goal of CHRA's for many years to have specialized programming for its members to build long-lasting professional networks.
